A feature this
significant deserves
to be **this beautiful.**

We build pools without compromise.

At Waterworks, we don't cut corners – we build pools that are a cut above. We believe, and our discriminating clients agree, that it's worth investing in a pool that's something special. Our well-built and beautifully-designed pools – whether vinyl liner, fiberglass, concrete, or even one-piece stainless steel – are energy-efficient, easy to maintain, and a joy to own. Our Principal, Brad Cross, is a member of the Society of Watershape Designers and the International Watershaping Institute. And our warranty – 10-years on the structure, 5 years on underground plumbing – exceeds industry standards. Like we said: no compromise.

Start with stunning.
And the sky's the limit.

Your Waterworks pool will be, well, whatever you can imagine! Our basic pools are anything but basic. And from there, you can add whatever features and extras that strike you. Here's a rough guide for what you can expect from your new pool, and how much you should budget for it.

A smart investment in our environment.

When we source and offer products, we consider sustainability, lifespan, and cost. Our Eco-Smart products are low-maintenance and can be 80-90% more energy-efficient than our competitors'. Sure, some of our planet-friendly products have a slightly higher upfront cost. But they'll save you money – along with chemicals and effort – in the long run. Win win.

ECO-SMART

SAVE WATER

SAVE CHEMICALS

SAVE ENERGY

SAVE TIME

You won't have to lift a finger. Except to call us.

You want a beautiful pool – not a part time job. It's why we can take all the work off your hands. We'll become your one contact for the entire project. Once you approve the design, we'll manage finding the right contractors, the scheduling, on-site supervision, invoicing, and even getting the permits – we take care of it all. We call it turnkey. Our clients call it the only way to get a new pool.

\$125,000+

Enjoy a gorgeous, complete new backyard pool, including Eco-Smart kit, concrete decking, fencing, and all permits and electrical work. Everything you need to jump in.

\$200,000+

More indulgence. In this price range, you can expect a larger pool with patios for dining and lounging, landscaping, fencing, a fire pit, and even a pool house.

\$300,000+

Level up. A larger pool with upgraded patio materials, landscaping, water feature, fencing, custom pool house, and fun extras like a putting green and shade structure.

\$400,000+

Live the dream. It doesn't get better than a large pool with vanishing edge and automatic cover, stone patios, landscaping, gas fire pit, cabana, and fencing.
